Forecast For Northeast England
Issued by Met Office Exeter
at 0400 on Monday 18 Oct 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Becoming cloudy with rain, brighter later.

Today:
Fog initially in the southeast, with some sunny intervals elsewhere at first. Becoming breezy with cloud thickening. Further outbreaks of rain arriving around lunchtime. Becoming drier away from the west, where it'll remain cloudy with outbreaks of light rain. Maximum temperature 16 deg C (61 deg F).

Tonight:
Becoming dry this evening for all parts with clear spells developing in the east. A chance of a little rain in the far north toward the end of the night. Minimum temperature 9 deg C (48 deg F).

Tuesday:
An area of persistent and at times heavy rain will move east across the region on a fresh breeze through the day. Perhaps becoming drier in eastern parts overnight. Mild. Maximum temperature 17 deg C (63 deg F).

Outlook for Wednesday to Friday:
Unsettled and windy on Wednesday and Thursday, with spells of rain, these heavy at times. Temperatures starting well above average, becoming cool from Thursday. Brighter with patchy light showers Friday.
